

### **Stimulus Summary – Durham County – September 10, 2010**

Below is a chart showing funds the County, the City, and other local agencies have been awarded or are seeking. This listing does not include all programs that may affect Durham residents, as some will be implemented directly through the state (e.g. increased unemployment benefits), applied for directly by homeowners or non-profits (e.g. weatherization grants), accrue directly to taxpayers (e.g. tax breaks), or that are available primarily to businesses. It is also a general summary of the provisions affecting Durham. More information is available via the County Manager's Office – please call 560-0065 if you are seeking more detail.
