EXECUTIVE SUMMARY

The Durham County Juvenile Crime Prevention Council (JCPC), in fulfillment of the duties and responsibilities as set forth in the General Statutes of the State of North Carolina, has completed the activities required to develop the FY 2017-2018 Annual Action Plan.

Guided by the Risk & Needs Assessment of Durham County youth and a Resource Assessment of Durham County, JCPC has identified issues and factors that have an influence and impact on delinquent youth, at-risk youth, and their families in Durham County which includes the development and strengthening effective and accessible alternative to youth development centers and to provide community-based delinquency, substance abuse and gang prevention strategies and programs. Further, JCPC has identified community focused evidence-based strategies and services most likely to reduce/prevent delinquent behavior.

To mitigate risk factors, JCPC has developed an Action Plan to reduce delinquent behavior. With the goals, measurable objectives and corresponding outcomes, JCPC proposes to prevent or reduce delinquent behavior in Durham County youth.

Major gaps in available service identified by the JCPC include effective and accessible alternatives to suspension, gang prevention and intervention programs and programs that increase parental involvement and support. JCPC is particularly interested in results-based programs that are culturally competent, inclusive and accessible to youth and their families.

Based on the Risk & Needs Assessment of Durham County youth and resources, JCPC has established funding priorities and determined that the following services are needed to reduce and/or prevent delinquency in Durham County:

Restorative Programs

Teen Court
Restitution & Community Services
Mediation/Conflict Resolution

Clinical Treatment Programs

MONITORING AND EVALUATION

Each program funded in the past year by JCPC has been monitored for compliance with Program Agreements by examining records documenting sound fiscal and program implementation and client tracking information using NC ALLIES to ensure an accurate account of services. In addition, JCPC reviewed information related to program evaluation, methods to maintain service fidelity and program improvements efforts and strategies.

The monitoring results and program outcomes evaluations were considered in making funding allocation decisions. JCPC continues to conduct implementation monitoring of its Action Plan and its funded programs on a quarterly basis. JCPC also requires funded programs to submit quarterly reports on youth admitted, number of youth served, referral source, referral reason, evidence of program progress and methods on how JCPC can assists the funded program.

FUNDING RECOMMENDATIONS

Having published a Request for Proposals (RFP) for needed services for a minimum of thirty (30) days, JCPC has screened the submitted proposals and determined which proposals best meet the advertised needed services for Durham County youth. As required by statute, JCPC recommends allocation of \$536,666 for reducing or preventing delinquency and develop strategies to achieve targeted outcomes.

JCPC further recommends that \$12,000 be allocated for the administrative costs of JCPC for FY 2017- 2018.

Respectfully Submitted, Nicole Jimerson, Chair Durham County Juvenile Crime Prevention Council

- I. Risk Assessment Summary
- **II.** Needs Assessment Summary
- **III.** Existing Community Resources Summary
- IV. Gaps and Barriers in the Community Continuum Summary
- V. Proposed Priority Services for Funding

Part I. Risk Assessment Summary

The Risk and Needs Assessment Committee reviewed data gleaned from the Juvenile Risk Assessment instrument administered by Juvenile Court Counselors after juveniles are referred with a complaint alleging that a delinquent act has occurred and prior to adjudication of the juvenile. The Juvenile Risk Assessment is an instrument used to predict the likelihood of the juvenile being involved in future delinquent behavior. For some youth, some of the individual item ratings may be heavily dependent upon information reported by the juvenile or the parent(s).

Durham County Risk Factor Observations: Data from FY 2015-2016

- 22% of youth at intake reported to have four or more prior referrals (R2)
- 13% of youth at intake had prior adjudications for class F-I felonies and AI misdemeanors (R3)
- 8% of youth at intake were reported to have a prior assault history with a weapon (R4)
- 32% of youth at intake were reported to have a run-away history (R5)
- 27% of youth at intake were reported to need assessment for substance abuse and/or treatment. (R6)
- 70% of youth at intake were reported to have serious school behavior problems. (R7)
- 50% of youth at intake lack pro-social peer relationships or sometimes associates with other delinquents; regularly associates with others involved in delinquent activity; 21 % were gang involved or associates with a gang. (R8)

Part II. Needs Assessment Summary

The Risk and Needs Assessment Committee also reviewed data gleaned from the Juvenile Needs Assessment instrument administered by Juvenile Court Counselors prior to court disposition of a juvenile. The Juvenile Needs Assessment is an instrument used to examine a youth's needs in the various domains of his life: The Individual Domain, The School Domain, The Peer Domain, and the Community Domain. This instrument was designed to detect service intervention needs as an aid in service planning. As with the Juvenile Risk Assessment, some of the individual item ratings may be heavily dependent upon information reported by the juvenile or the parent(s). For these items (noted by an asterisk), there is a likelihood of under-reporting the incidence of a behavior and the actual incidence may be higher than suggested by these figures. In those cases, the figure should be interpreted as a measure of the minimum level of occurrence.

Durham County Elevated Needs Observations: FY 2015-2016

- 25% of youth at intake reported to have level of substance abuse needing treatment (Y4)
- 43% of youth at intake reported to need more mental health assessment (Y8)
- 21% of youth at intake reported to have family member under active court supervision or gang involvement (F5)

Part III. Existing Community Resources Summary

Statewide contractual services available for Level II Juvenile Court involved youth in Durham County include the following:

- Eckerd Short Term Residential for males only
- West Care Residential Services for females only

- Dillon Crisis and Assessment Center operated by Methodist Home for Children
- Functional Family Therapy by Arminids

Part IV. Gaps and Barriers in the Continuum of Services Summary

Programs to address community sanctions for juvenile court do not exist outside of programs funded by the Juvenile Crime Prevention Council.

Part V. Proposed Priority Services for Funding

The committee compared the services needed to address the elevated Juvenile Risk Factors and Juvenile Needs with services currently available in the community. Services which are currently available in the community and sufficient to meet the needs of court involved youth or those youths most at risk for court involvement are not considered as a priority for JCPC funding.

The Committee proposes that the following services in ranked order be approved as the funding priorities for FY 2017-2018.

- 1. Community Service/Restitution
- 2. Teen Court
- 3. Mentoring
- 3. Counseling
- 4. Skill Building Programs
- 5. Home Based Family Counseling
- 6. Mediation/Conflict Resolution
- 7. Structured Day
- 8. Tutoring/Academic Enhancement
- 9. Substance Abuse Treatment
