Resolution in Support of Funding to Meet the Mental Health, Intellectual/Developmental Disabilities, and Substances Use Disorder Service Needs of the Citizens of Durham County

Commissioner Carter read the following resolution.

RESOLUTION IN SUPPORT OF FUNDING TO MEET THE MENTAL HEALTH, INTELLECTUAL/DEVELOPMENTAL DISABILITIES, AND SUBSTANCE USE DISORDER SERVICE NEEDS OF THE CITIZENS OF DURHAM COUNTY

WHEREAS, Durham County recognizes that, with appropriate services and supports, individuals and families dealing with mental illness and substance use disorders can achieve recovery and that those with intellectual/developmental disabilities can live productive lives in our communities; and

WHEREAS, the amount of resources needed for such services and supports are increasing due to North Carolina’s increasing population; and

WHEREAS, Durham County is a member of Alliance Health (formerly known as Alliance Behavioral Healthcare), a public Local Management Entity/Managed Care Organization (LME/MCO) responsible for providing system management and oversight for approximately 471,000 Medicaid-covered and uninsured North Carolinians across four counties; and

WHEREAS, consistent with the expectations of the North Carolina General Assembly and the North Carolina Department of Health and Human Services, Alliance’s Board of Directors has developed, and Alliance’s intent is to implement, a comprehensive reinvestment plan benefiting the citizens of Durham County with service enhancements, including housing initiatives and innovative evidenced-based and crisis services, as part of a focused effort to reduce unnecessary emergency department admissions and to divert people from our criminal justice system; and

WHEREAS, while the North Carolina General Assembly passed mental health reform legislation in 2001 with the intent of improving clinical services and deinstitutionalizing, State funding for North Carolina’s behavioral healthcare system has been inconsistent and inadequate for more than 17 years since this legislation became law; and

WHEREAS, the North Carolina General Assembly has reduced State funding for behavioral health services (known as single-stream funding) by more than \$458 million, including a more than \$67 million reduction in funding to Alliance, over the past four years while requiring the LME/MCOs to continue offering the same level of State-funded services as before such reductions; and

WHEREAS, despite these significant single-stream funding reductions, Alliance has continued serving the uninsured and underinsured using the remaining State funds and portions of its savings intended to be used for implementing its reinvestment plan; and

WHEREAS, while it is Alliance’s intent to implement its comprehensive reinvestment plan enhancing services for the citizens of Durham County, State single-stream funding has been reduced for four consecutive years and such continued reductions have forced Alliance to eliminate, or halt work on, items from its reinvestment plan; and

WHEREAS, Durham County has continued to fund Alliance with County dollars to supplement services to our residents, but we are concerned that additional reductions in behavioral health funding by the State may increase the need for the local allocation and place additional strain on other County services such as Emergency Medical Services (EMS), jails, and other social service resources.

NOW, THEREFORE, BE IT RESOLVED, that we, the Durham County Board of Commissioners do hereby request that the North Carolina General Assembly:

- Stop cutting Alliance Health’s State single-stream funding so that such funds can be utilized to strengthen access to healthcare services for the mental health, intellectual/developmental disabilities, and substance use disorder needs of uninsured and underinsured Durham County citizens; and
- Allow Alliance Health to continue to utilize its savings to reinvest in enhanced, innovative services in our communities rather than mandating that such funds be used to replace previously reduced State funding.

Resolution – The National Collaborative for Infants and Toddlers Resolution to Promote Investment in Young Children and Families from Prenatal to Three

Commissioner Howerton read the following resolution.

THE NATIONAL COLLABORATIVE FOR INFANTS AND TODDLERS RESOLUTION TO PROMOTE INVESTMENTS IN YOUNG CHILDREN AND FAMILIES FROM PRENATAL TO THREE

WHEREAS, counties routinely provide an array programs and services to an estimated 16 million children ages birth to three in the United States; and in 2017 about 29 percent of counties had more than a quarter of all children living in poverty; and

WHEREAS, the most rapid period of brain development occurs within the first years of life with the brain developing faster from birth to age three than at any later period in life, building the foundation for all future learning, behavior and health; and when toddlers receive what their growing brains need, they become healthy children who are confident, empathetic and ready for school and life; and programs and policies that support healthy development from birth to age three result in better social, economic and health outcomes and build a more productive workforce that strengthens our economy now and in the future; and

WHEREAS, parents are a child’s most important caregivers and play the lead role in their child’s healthy development; at the same time, communities and governments can effectively provide families with an array of comprehensive support at an especially critical time; and

WHEREAS, programs and policies should start early to ensure healthy beginnings at birth, support families with infants and toddlers and make high-quality child care and learning environments more accessible and affordable to all; and

WHEREAS, high-quality child care is often unavailable or unaffordable for parents who need it, and many families are not connected to networks or early childhood support that can offer guidance and confidence to navigate the earliest months and years of their children’s lives; and

WHEREAS, Durham County and all counties take pride in our responsibility to protect and enhance the health, welfare and safety of residents in cost-effective ways—especially for the children under the age of three in our area; and

WHEREAS, research shows that when we invest in the first three years of a child’s life the returns for the community are the highest, and we can reduce the need for more expensive interventions later; and

WHEREAS, research also shows that high-quality early childhood development programs can deliver an annual return of up to 13 percent per child on upfront costs through better outcomes in education, health, employment and social behavior in the decades that follow; and economists attribute local economic growth and prosperity to high-quality early child care programs; and

WHEREAS, the National Association of Counties (NACo) and other national organizations joined the National Collaborative for Infants and Toddlers (NCIT), a project of the Pritzker Children’s Initiative (PCI), in a groundbreaking partnership to work with communities and states across the country to focus on early childhood development for young children from birth to three.

NOW, THEREFORE, BE IT RESOLVED, we the members of the Durham County Board of Commissioners do hereby sign on to the Call to Action to prioritize and invest in prenatal-to-three efforts that promote a healthy start at birth, support for families with infants and toddlers and high-quality care and learning environments and utilize the resources available through NACo and the NCIT to:

- Be a champion for change by prioritizing and investing in high-quality infant-toddler programs so children, families and communities can thrive;
- Designate an early childhood leader with authority to coordinate and maximize county services to optimize child and family outcomes and leverage additional resources;
- Convene or draw on a diverse team of leaders, decision-makers and community stakeholders committed to early childhood investments;

- Take an inventory of local programs and services for children and families;
- Create a plan with measurable outcomes to implement, shift and enhance evidence-based approaches that promote a comprehensive and equitable continuum of care that begins before birth and spans into adulthood, with specific recommendations for children under three and their families;
- Leverage local, state and federal investments and explore innovative funding strategies and revenue streams to support early childhood programming; and
- Promote prenatal-to-three policies, best practices and cross coordination to improve child and family outcomes as well as service delivery and efficacy in government through streamlined processes.

Wendell Davis, County Manager, responded no research had been conducted on pay equity. The Board asked about Durham having a low gender gap. Ms. Bausch replied the national average was around 87 percent and Durham was at 94 percent which was the reason why she chose Durham for her research. She added Durham was aware of the gender gap but lacked corrective actions. The Board asked if the research included women pay compared to men. Consideration to Discontinue the Durham-Orange County Light Rail

Wendell Davis, County Manager, requested the Board consider discontinuing the Durham-Orange Light Rail Project as recommended by the Go Triangle Board of Trustees. This action would satisfy the requirements of the *Interlocal Cost Sharing Agreement for the Durham-Orange Light Rail Transit Project* by formally discontinuing the project and beginning a process to reallocate funds that was allocated to the light rail project and amended the Durham County Transit Plan.

On March 27, 2019, the GoTriangle Board of Trustees voted unanimously to recommend that the cost-sharing partners in Durham and Orange counties and the Durham – Chapel Hill – Carrboro Metropolitan Planning Organization discontinue the light-rail project.

Commissioner Reckhow stated the North Carolina General Assembly actions over the past four (4) years made the path forward very difficult with reduced funding on several occasions. She added the Durham-Orange County Light Rail was the only project out of about 3,000 projects listed in the Strategic Transportation Investment Program with a timeframe. Commissioner Reckhow mentioned the timeframe made the project less resilient with limited extra funds and flexibility. She added the Federal shutdown, Duke University not signing the cooperative agreement and the North Carolina Railroad adding requirements that were difficult to meet also impacted the project. Commissioner Reckhow stated the Go Triangle Board would look at the public investments to see what could be repurposed and was committed to evaluating the corridor for use in another project. She added the transit plan would be updated in the next 12 to 15 months with the community and key stakeholder's involvement. Chair Jacobs added stated the Durham-Orange County Light Rail was the only project that was funded through the State Transportation Funding Process. She added its purpose was supposed to take out the politics and award projects based on merits.

Commissioner Howerton heard citizens asking at a Partners Against Crime (PAC) meeting what were the plans for the money that GoTriangle received for the light rail project. Commissioner Reckhow replied about \$8 million dollars was spent in Durham from the transit fund for transit services with a large amount spent on bus services, capital improvements and inflation cost. She added approximately \$800,000 was committed to researching and planning for commuter rail.

Commissioner Carter thanked Chair Jacobs, Commissioner Reckhow, John Tallmadge and Matthew Clark for all their hard work with the light rail project.

Vice-Chair Hill thanked Chair Jacobs and Commissioner Reckhow for all their work and efforts with the light rail project. He explained the importance of rail in the history of Durham.

Chair Jacobs stated the project would have created thousands of new jobs and infused billions of dollars into the local and state economies.

Chair Jacobs thanked GoTriangle staff, the City-County Planning Department staff, Anthony Scott, Secretary of Transportation James Trogon, III, Congressman George Kenneth Butterfield, Jr., David Price, industry partners, Commissioner Reckhow, Mayor Steve Schewel, County Manager Wendell Davis, Durham County staff and the Durham community. She added there was still a need for reliable, convenient, affordable and rapid regional transit system connecting Durham, Orange and Wake counties. Chair Jacobs mentioned citizens needed a mobility option to access jobs, healthcare and educational opportunities. She added a fixed route corridor was the only method to have a traffic free option that protected the water, air, trees, fight climate control, manage population growth, racial and economic equities and growing poverty. Chair Jacobs stated she would never stop fighting for the best interest of the citizens of Durham and the needs that must be addressed.

County Attorney Lowell Siler thanked Willie Darby, Senior Assistant County Attorney for all his efforts with drafting and re-drafting the project documents.

Commissioner Reckhow moved, seconded by Commissioner Carter to discontinue the Durham-Orange Light Rail Project as recommended by the Go Triangle Board of Trustees.

The motion carried unanimously.
