

Who should get tested for Coronavirus Disease 2019 (COVID-19)?

COVID-19 tests are available as needed, and it is not necessary for everyone to be tested for COVID-19 at this time. Contact your medical provider if you:

- Have fever or lower respiratory symptoms (cough, shortness of breath) and close contact with a confirmed COVID-19 case within the past 14 days
- Have fever and lower respiratory symptoms (cough, shortness of breath) and a negative rapid flu test

Visit [NCDHHS.gov](https://www.ncdhhs.gov) for more information on testing.
