# Trends

Changing industry and real estate drivers

More involved RFIs and site visits for both traditional and nontraditional projects

Increasing regional collaboration, especially around talent development

# Projections

**8,000+** new jobs over the next five years primarily in manufacturing, technical, research, consulting, and healthcare.

These 8,000+ jobs will lead to creation of **14,000+** secondary jobs.

**Living wage jobs** with a variety of entry points and growth potential, resulting in a **\$1.4+ billion economic impact**, leading to more consumption, increased growth, and opportunity.
