

LEAVE YOUR LEAVES

New Hope Audubon's campaign is one of our many programs that benefit local communities and the planet. Leaving your leaves increases biodiversity and climate resiliency along with these other benefits:

- Leaves help fireflies, insects, bees, birds, turtles, frogs, and wildlife thrive
- Leaves will decompose over the winter creating healthier trees and soil
- Leaving your leaves reduces air, water and noise pollution
- Leaving your leaves saves homeowners, businesses, and our city government money
- Leaves soak up water reducing runoff and flooding

Join us as we work together to build a stronger more diverse environment in our local communities.

PLEDGE TO LEAVE YOUR LEAVES
LEAVEYOURLEAVES.ORG

A special thank you to the Triangle Community Foundation's Fund for the Triangle (trianglecf.org) and Keep Durham Beautiful (keepdurhambeautiful.org)
