Summary Information:

The DCoDPH Family Planning clinic offers a range of contraceptive and preventative services to the Durham community. Services are confidential, offered using a sliding fee scale, and intended to be responsive to the needs of the population we serve. The program is supported by several funding streams, with applicable rules and regulations attached to this funding, particularly in the case of Title X. Given the current climate surrounding reproductive rights and access to reproductive healthcare, it is important for the DCoDPH staff and the Board of Health to have a clear understanding of the scope, limitations, and opportunities surrounding Family Planning services offered at DCoDPH.
