For Managed Care Medicaid claim activity, Public Health receives Quarterly Separated Directed Payments. The Separate Directed Payment calculation is based on Public Health's specific Ratio of Costs to Charges (RCC) as determined from the Base Year (State Fiscal Year 2019) Medicaid cost report and trended forward annually for inflation. The rate is annually adjusted if the aggregate price changes (Chagemaster change) are more or less than the allowed inflationary increase. To that end, Public Health attests to periodic chagemaster changes. This letter attached reflects Public Health's aggregate chagemaster changes to applicable codes between July 1, 2023 and July 1, 2024, which is 0%. Even though there is no change, Public Health is still to report this to N.C. Department of Health & Human Services.
